Protection starts from the right fit

Wearing the right size helps the mask work better and improve your protection. That's why the Smart Mask comes in three sizes specially designed to fit your family. Tested on Asian facial profiles, the Smart Mask is ergonomically-designed to fit the smaller faces of children as young as 7 years old to provide well-sealed protection. Use as an essential protective mask or pair with the AIR+ Micro Ventilator for added comfort.

- Designed to feel comfortable**
- + Plush cushioning ensures complete seal without compromising comfort
 - + Innovative filter mesh that is easier to breathe through
 - + Compatible with AIR+ Micro Ventilator for fresher air

Breathe better with AIR+ Micro Ventilator

It is easy to feel "stuffy" when you wear a mask over a long period. Heat, moisture and carbon dioxide trapped in the mask causes discomfort and breathing difficulties.

- Increased CO₂ levels may cause**
- Altered visual performance
 - Headaches and dizziness
 - Decreased alertness
 - Irritability
 - Shortness of breath

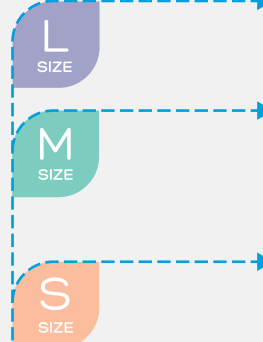

That's why children and the elderly are encouraged to wear the Smart Mask with the AIR+ Micro Ventilator for breathable cool comfort.

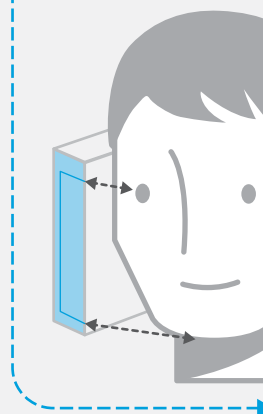

Sold separately from AIR+ Smart Mask

2.5 hours run time **19g** pocket size **IP53** dust & splash resistant

Choose the right mask size for you
